

New Jersey Summer Camp 2021 COVID-19 Policy

We are hopeful that, as a result of widespread vaccinations and other measures, the risk of COVID-19 will be greatly reduced this summer. But until the Department of Health changes their guidelines, we must continue to take the necessary precautions to operate our on-site programs safely. And to do this, cooperation from families is absolutely essential. We are fortunate that between the precautions the school has taken and cooperation from parents, children and staff, we have had very, very few COVID-19 cases in the school during the 2020.21 school year (and no re-transmission) despite operating a near normal schedule on-site for all students every day since the beginning of the school year last September.

Policy Agreement

Parents are expected to ensure their children understand what is expected of them. Failure to comply with this Policy or the safety protocols may result in a student being sent home and/or the removal of a student and his/her family at the discretion of the school administration. Parents agree-

1. To PCR test their child within 5 days of the start of the summer camp session they are planning to attend. A negative PCR test is required to attend camp. If the child attends the camp on a continuous basis for multiple sessions, a second test is not required.
2. To reinforce healthy habits outside of school such as safe social distancing, frequent handwashing and use of masks when in the proximity of groups of people outside of the immediate family.
3. To fill out the screening app used by the school prior to arrival on campus daily and to submit the required information.
4. To acknowledge that the school has implemented a safety and health policy that requires all students on-site to wear a mask, social distance and observe other practices and precautions designed to mitigate the risk of spreading COVID-19 and agree that the student will abide by these guidelines.
5. To be complete and truthful in your communications with the school regarding symptoms of COVID-19 in your children or others in the household, travel plans and any other information deemed relevant by the school to assess risk during the pandemic. Parents agree to inform the school of COVID-19 test results within 1 hour if positive and 12 hours if negative after receiving the result.
6. To respect the privacy of students and families by not communicating anyone's personally identifiable health related information including the results of COVID-19 tests.
7. That the school has the authority to make the final decision as to whether a child can attend school on-site. If a child shows COVID-19 symptoms during the school day, we

agree that we will make every effort to pick up the child within 2 hours of being contacted.

8. To acknowledge the continued presence of the COVID-19 pandemic (the “Pandemic”) and assume all risk associated with the Pandemic, including, without limitation, the possible dissemination of the Pandemic from other attendees of the Program. The undersigned hereby releases Bilingual Buds LLC d/b/a Hudsonway Immersion School, and their respective officers, directors, members, shareholders, employees and agents from and against any and all claims, liabilities, actions and damages that the undersigned and/or the child of the undersigned enrolled at the Program, and/or any of the undersigned’s other family members may sustain as a result of the undersigned child’s attendance at the program.

Summer Camp school policy regarding close contacts, quarantines, positive cases and travel is summarized in the following table and based on current Department of Health policies. *We expect these policies to change as summer approaches and more people are vaccinated.*

Scenario	Policy
Child exhibits COVID-19 symptoms (but not a close contact)	Child is excused from school. Must have a negative test (rapid or PCR, not antibody) to return.
Child tests positive for COVID-19	Child must isolate for 10 days. Can return if fever free for 24 hours (without the use of fever reducing medicine) and symptoms, if any, have improved. No further testing required.
Close contact (within 6 feet for 10 minutes cumulative in a 24 hour period) of a positive case	Child must quarantine for 10 days. Can return if fever free for 24 hours (without the use of fever reducing medicine) and symptoms, if any, have improved. No further testing required.
Domestic travel from any U.S. state or territory beyond the immediate region (New York, Connecticut, Pennsylvania, and Delaware) if out of state for more than 24 hours	<ul style="list-style-type: none"> • The child should get tested (rapid or PCR, not an antibody test) 1-3 days before the trip starts and again 3-5 days after the trip. • If the test is positive, follow the guidance above • If the test is negative, quarantine for a full 7 days after travel • If testing is not available quarantine for 10 days after travel
International Travel	<ul style="list-style-type: none"> • Effective January 26, 2021, the CDC is requiring all air passengers entering the United States from a foreign country to test negative for COVID-19. Other restrictions vary by county. Contact the school for guidance.

Medical Authorization

I understand that every effort will be made to contact me in the event of an emergency requiring medical attention for my child. However, in an emergency I hereby authorize the school to transport my child to the nearest hospital and to secure for my child the necessary medical treatment. I understand that the staff members are trained in the basics of First Aid and I authorize them to give my child first aid when appropriate. Finally, I authorize school personnel to apply topical ointments like sunscreen or Neosporin (in the case of minor cuts and bruises) to my child as necessary.
